

## ***Engage Associates by easily creating certification programs such as on-boarding, product or skills training...***

Do you need a way to consistently on-board, educate and test your associates? You can without having to invest in an expensive LMS solution. Opterus' Testing and Certification module is one in an inclusive suite of modules Opterus provides to solve your retail communications problems. The Testing and Certification module allows you to create programs consisting of lists of the required certifications. You can decide which certification programs are required or optional for different store or head-office roles. Certifications can be used for on-boarding new employees, keeping track of manager training programs, ensuring all employees are compliant with safety training, etc. Employees will be able to view their certification status and progress, completed their Certification Programs from the certification module, or see any certifications Certification Programs within their list all from their centralized communication tool.

*Store Ops-Center* is an intuitive, multi modular, cloud solution designed specifically for retail to simply and effectively manage and execute store tasks and communications. Because it is a cloud solution, no software installation or maintenance is required, and the system can be setup, configured and ready for use in a very short time. Opterus took an Operational slant to communications and task execution and designed the solution to be clean and easy to use with light administration to be maintained by business users. Through Opterus' modular approach, *Store Ops-Center* solves the entire retail communications problem, not just pieces of it. Opterus has seen very strong user adoption at all levels of the retail organization. Upgrades are fast, free, and easy and custom workflows can be created with no development effort required.

We invite you to take a closer look at the Opterus solution and see how it fits your needs and can help you become more efficient and effective with your communications. Click below to schedule a customized demo and see for yourself!
